Are You at a Crossroads, Wondering Which Road to Take... Would You Like a Signpost?

Dear Friend,

There are many roads in life that we can choose to take. Wouldn't it be good to have a signpost to guide you which way to go? Sometimes if we have a little spiritual guidance, we can choose the right road, the road that leads to our happiness and prosperity. That signpost is your psychic reading.

In your quest for answers, perhaps you have tried calling psychic lines before. Don't pay up to \$4.34 per minute for a 1900 call. Sheer nonsense! Melody, a reputable psychic reader, can give you a comprehensive 45-minute reading for \$65.00, which is only \$1.44 per minute.

My experience with Melody's reading was to the point, down to earth and dispensed with genuineness and clarity. It has changed my whole perspective on readings. Delia Picoli ~ Gold Coast

What life question do you want to know about? Is it about money, love, work, or health? Perhaps you want to know about a close friend or spouse's future. Ask your question, give their birth date and first name, and Melody will tune into their energy area too.

It may be that you have a question your conscious mind is asking, but in your reading Melody finds the energy pointing towards a different zone... that information is what your heart is seeking most of all. This new information brought out of your subconscious will enable you to readjust your path, and focus on what is really more important to your life.

Melody is an international psychic healer, teacher & transformational life coach. She has been working with Energies for over 13 years, having undertaken a remarkable healing journey in that time. Her mission is to help others find their true path and unlock self-limiting beliefs. She has written the e-books: “Unlock the Secrets: How to Let Go of Stress, Anxiety and Panic”, “Infinite Possibilities”, and “All About Love”.

Unexpectedly, you might develop an affinity with Melody like others have... she is not just an anonymous voice; she is a real, warm and loving person that cares about people and their futures.

Melody was recommended to me with such enthusiasm that I felt an urge to partake in a reading, I was fascinated with the accuracy and genuine love that Melody portrayed. I had a phone reading from London to Australia and even over the phone I could feel the energy!

How can Psychic Readings over the telephone be accurate?

In order to do a reading for someone a Psychic has the ability to raise their vibration to access the universal consciousness. All Melody needs to start with is your first name, date of birth and location, and of course your question. With this information she is able to tap directly into your own personal energy and access the information surrounding you. Perhaps it is not so important to know HOW it works, rather that it DOES work. The results speak for themselves:

My experience with Melody's reading was earth-shatteringly accurate and profound.
Amazing insight as to how to move forward in my life.
- Steve Hudson, Gold Coast

How Does Melody Conduct Her Reading?

Melody uses Tarot cards, channelling, and her own intuition.

True Tarot is about symbolism and intuition. The card illustrations are drawn from universal energies, symbols and images from myths, philosophies, religions and

magic beliefs of the human race. These icons have been around since the 15th century, originating as playing cards and undertaking many changes along the way.

"The most powerful sources of information come from within; the Tarot aids in coming in contact with one's Higher Self." (Hermetic Order of the Golden Dawn)

Rooted in mystic energies, the Tarot cards give insight to an individual's character, while providing an accurate means of divining the future. If you wish to know more about Tarot Cards out of curiosity, please see [How Stuff Works](#)
